

With respect to:

The Waste Electrical and Electronic Equipment Regulations 2013 (UK)

and

The European Union's Waste Electrical and Electronic Equipment (WEEE) Directive

There are a number of obligations imposed on DemoPad Software Ltd ("DemoPad") as a "Producer" of certain qualifying electrical and electronic equipment.

DemoPad supplies products Business to Business

DemoPad's compliance approach for each of these obligations is provided below.

WEEE Marking

All qualifying products that are subject to the WEEE Directive and supplied by DemoPad are compliant with the WEEE marking requirements.

Such products are marked with the "crossed out wheellie bin" WEEE symbol shown above and in accordance with European Standard EN 50419.

Information for Users

The WEEE symbol on the product or on its packaging indicates that the product must not be disposed of with normal household waste. Instead such marked waste equipment must be disposed of by arranging to return to a designated collection point for the recycling of waste electrical and electronic equipment. By separating and recycling this waste equipment at the time of disposal will help to conserve natural resources and ensure that the equipment is recycled in a manner that protects human health and the environment.

DemoPad offers our customers the opportunity to return products at the end of their functional lives to DemoPad for recycling, qualifying products are marked with the WEEE symbol shown above.

Delivery cost of any authorised product returned to DemoPad will be at the expense of the sender. Normal product return policy will be applied with pre-authorisation required in the form of RMA Number without which product will not be accepted.

For pre-authorisation and prior to any return please contact your DemoPad representative:
